

GOVERNMENT CLOUD

Contrary to popular belief, cloud deployments aren't just reserved for enterprises or solutions providers. In fact, government agencies utilizing cloud services are out-pacing most industries. And they spend a larger percentage of their IT budgets on cloud services, as well. There's no question about it, government entities are adopting tech on pace, often faster, than the private sector.

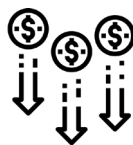

A SECURITY-FIRST APPROACH

GDT understands that utilizing the cloud, even for government customers, goes well beyond security. Like their enterprise counterparts, government agencies are looking for cost savings and the ability to deliver services more efficiently.

By first conducting thorough cloud migration and optimization assessments, GDT's Government Cloud experts ultimately help agencies enjoy:

GREATER ENVIRONMENTAL VISIBILITY

ENHANCED COST CONTAINMENT

AUTOMATION FOR SELF-HEALING NETWORK

UNPARALLELED SECURITY & COMPLIANCE

AUGMENTED RESOURCE UTILIZATION

COMPREHENSIVE ASSET MANAGEMENT

FEDRAMP-CERTIFIED PARTNER

GDT has been providing cloud services to government agencies for years. In fact, we're one of the few systems and network integrators that is FedRAMP-certified. Organizations that have earned this certification means that they've been carefully vetted by the U.S. Office of Management and Budget (OMB) to ensure government customers receive the highest levels of cloud security.

GDT GOVERNMENT CLOUD MANAGED SERVICES

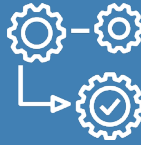

GDT's Government Cloud professionals manage some of the most noteworthy government agencies in the United States and abroad. From its 24x7x365 Network and Security Operations Centers (NOC and SOC), they can manage your entire Cloud infrastructure, including:
