

# GDT CONSULTING SERVICES

Finding an IT professional with the ideal skill-set to complete a strategic initiative can feel like an overwhelming task. Now throw in a tight deadline, low unemployment, and some of the highest competition for this talent, and that task can seem impossible. For years, companies and service providers have turned to GDT to augment their business & IT departments.

## GDT'S IT CONSULTING SERVICES ADD VALUE

### IT EXPERTISE

GDT has deep, technical knowledge of our customers' environments. As an IT solutions provider & network integrator, we provide skilled candidates to meet the ever-changing business needs.

### COST EFFECTIVENESS

GDT can reduce the costs and overhead with onboarding contract, as well as full-time resources for specific projects.

GDT's Consulting Solutions provide professionals who, through empirical experience, and technical certifications, can hit the ground running and make an immediate impact. Their practice is comprised of experienced industry personnel equipped with the expertise and tenure that comes from years of placing the right candidates into the right positions. By combining their IT experience and a vast network of engineering and technical professionals, customers can better meet deadlines, faster speed to market, and remain focused on the key initiatives that will help shape their organization's future.

# FOCUSING ON THE MUCH NEEDED, OFTEN OVERLOOKED SOFT SKILLS

GDT understands the need to look beyond the resume and ensure candidates' professional philosophies and work ethic perfectly mesh with an organization's vision.
