

PROFESSIONAL SERVICES

An IT solution, no matter how big, small or technical, is only as good as the professionals who architect and deploy it. And not having the right—or enough—professionals with the needed skill sets on staff can jeopardize the customer solution you're set to deliver. Missed deadlines, shoddy installations and an unhappy customer will result. That's why IT organizations of all sizes turn to GDT to help deliver exactly what was ordered.

GDT is widely known for employing the very best and brightest solutions architects, engineers and project managers in the industry. They have successfully delivered a vast array of solutions to organizations of all sizes, and from a wide variety of industries.

GDT'S CORE SERVICES + THE RIGHT SKILL SETS = THE PERFECT GDT SOLUTION

By utilizing the very best resources the IT industry has to offer, including a state-of-the-art Executive Briefing Center and a 24x7x365 NOC and SOC, GDT delivers a variety of professional services solutions that help advance their IT organization and enjoy digital transformation and its many benefits. GDT provides:

- Advisory & Consultancy Services
- Engineering & Project Management
- Staging & Integration
- Layer 1 Infrastructure Design & Implementation
- On-site Techs, Rack Stack, Endpoints, AP's, IoT
- Proofs of Concept (POCs) with Leading OEMs

GDT's engineering and security skill sets extend well beyond those of most IT departments. They always utilize best practices, such as ITIL, which is a framework that outlines best practices for the delivery and lifecycles of IT services. And they're especially talented at designing and deploying automation that takes over many of the mundane tasks to free up customers' time and allow them to focus on more forward-thinking initiatives.

PROJECT MANAGEMENT UNPARALLELED IN THE INDUSTRY

With the help of GDT's tenured field operations team, with hundreds of professionals from coast to coast, GDT's Project Management practice has the knowledge, expertise and empirical experience to help ensure the largest and most complex technology solutions are completed on time, every time.

COMPREHENSIVE LOGISTICS SOLUTIONS

GDT's Integration Center provides national and international shipping and tracking services, and offers professional packing options, such as bracing, shock pallets, and anti-static packing materials. They're also equipped to provide:

- Kitting
- Custom Labeling
- Asset Tagging
- Rack/Stack and Roll
- Physical hardware configuration
- Device Burn-In
- Software/Firmware Upgrades
- Device hardening configuration
- RMA/DOA processing with OEMs
- Quality Inspection
- Cloud-Based Devices

STAGING & DELIVERING ANY SOLUTION, ANYWHERE IN THE WORLD

The GDT Integration and Configuration Center provides staging, testing and end-to-end validation for all GDT technology solutions. Their Service Delivery Engineers and Solutions Architects take the guess work out of IT deployments by eliminating variables and reducing risk, which greatly accelerates deployment times. And their logistics team ensures solutions and associated hardware are ready for immediate implementation upon arrival at the customer's site.

WHY GDT?

Founded in 1996, GDT is an award-winning, technology integration partner. GDT specializes in designing, building, and delivering best-of-breed technology solutions for service providers, enterprise networks, data centers, and more.
